

ABCN

Fairfield High School works closely with ABCN (Australian Business and Community Network) on a wide range of programs and scholarship opportunities for our students.

this partnership has seen Fairfield High School students gain valuable skills they need not just for their time at school, but that are also applicable to their future.

Current Programs students are involved in include:

- Goals - a goal setting program aimed at year 9 students
- Future Thinkers - a program designed to help expand students' knowledge of the world
- Aspirations - designed to help students determined their future goals
- Focus - to develop leadership potential in young women

We also support our year 10 students each year in applying for the ABCN Accelerate scholarship. This is a three year scholarship program wherein students are supported in their two final years of school and their first year of tertiary education. Students are supported financially and also through a mentor allocated by ABCN.
